Dear Darren & Andrew,

RE: CARIBBEAN 26

This is just a short note to thank you for the pleasant experience in buying a new boat from you.

The boat itself is fabulous, big, strong and best of all, made in Australia.

Going to the factory during the construction was an experience in itself.

It was particularly easy and straightforward with you making the purchase a breeze and then giving me some basic handling techniques (even though I have had previous boats, it does take a little extra effort learning the two motors).

At all times we found there was nothing that was too much bother.

Well done and all the best.

Yours sincerely,

Rob & Chris Harvey
